

High performance carbide file cutter for stainless steel and difficult metals due to its substrate and specific tooth geometry. Made in France.

- Especially for stainless steels
- Especially for Hard steels
- Excellent surface finish
- Superior long life
  
- Cylindrical shank
- Carbide head

**Machine**

**Application**

<b>K</b>	<b>M</b>	<b>N</b>	<b>P</b>
K- Ferrous Cast iron with Short Chips	M- Stainless steels	N- Non-ferrous alloys	P- Ferrous Long Chip Steels

**Features**

**Properties and benefits**

- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ➡ Enables versatile use on portable electrical tools and CNC machine tools.
- + Tungsten carbide head: ground in a grade of carbide especially suited for high rotation speeds. ➡ Enables an excellent throughout rate and very high resistance to wear, suitable for very high rotation speeds in the majority of metals.
