

1143741 | Fully ground HSS metal drill bit -DIN1897 -h8
-Special sharpening for metal sheet

Drilling and blunting of steel and stainless steel sheets.

- Especially for high-strength steels and cast irons
- Ultra-precise drilling
- Rapid drilling
- Tough
- Made in France

- Cylindrical shank
- 30° type N flute
- High-speed steel
- Sheet metal cutting

Machine

Application

Features

Properties and benefits

- + Cylindrical shank: the diameter of the shank is equal to the diameter of the tip. ➡ Enables versatile use on portable electrical tools and CNC machine tools.
- + 30° type N flute: normal flute profile with a 30° helix angle. ➡ Suitable for general use. Provides good rigidity to the tool, as well as excellent drilling precision.
- + High-speed steel: HSS substrate ➡ For general use in steels and cast irons up to 950 N/mm²
- + Sheet metal cutting: with centring tip and lip. ➡ Circular and burr-free drilling of thin sheet metals. Suitable for the misalignment of weld points.
