

PREMIUM**8245201 | SIRIUSIII solid carbide drill -TiAlN coating
-DIN6537L -m7 -5xd -With oil-feed hole**

High-performance drill (5xØ), versatile for steels, aluminium alloys and refractories. Made in France. Micro spraying.

- Versatile use
- High speed machining
- Maximum long life
- Made in France

- Internal lubrication
- TiAlN coating

Machine**Application**

K- Ferrous
Cast iron
with Short
Chips

M-
Stainless
steels

N- Non-
ferrous
alloys

P- Ferrous
Long Chip
Steels

S- Super
Refractory
Alloys

Features**Properties and benefits**

- + Internal lubrication : Central watering ➡ The tool has internal channels to provide the lubricating fluid closer to the cutting edges.
- + TiAlN coating: TiAlN base, thickness 2/4µm, hardness 3000HV, coefficient of friction 0.4, heat resistance 900°C. ➡ Thermal shield. Allows you to increase service life, cutting speed, and progress. Reduces the axial load. Versatile uses.
